 Notified Body - Inspec International Limited CE0194

Performance

(Test conducted by Inspec, results in average)

Penetration test (filtration) at 95l per min		
Sodium chloride	Limit allowed	
0.22%	1%	
Breathing Resistance		
(in mbar)	30L p min	95L p min
Inhalation Resistance	0.55	2.01t
Limit allowed	1	3
TIL – Total Inward Leakage		
(5 exercises done by 10 people with different subjects)		
Average results	0.14%	
Limit allowed	2%	

Ordering Information

Code	Description
F02.1/1	Stealth® Lite Pro FFP3V R D Multi-Shift Disposable - 1 PK
F02.1/5	Stealth® Lite Pro FFP3V R D Multi-Shift Disposable - 5 PK
F01.5.014	Stealth® Half Mask Storage Case

Features & Benefits

- 99% + Filtration efficiency - HEPAC®-Lite filter technology for highest particulate protection & ultra-low breathing resistance - fiberglass free.
- Downward facing exhaust valve - no misting or steaming of goggles.
- Sleek unobtrusive design to accommodate visors, helmets, spectacles / goggles & other PPE.
- Latex & silicone free - TPE medical grade face seal so it can be worn for 8+ hours.
