

406

SHOWA's 406 integrates our best engineered technology, making it water-repellent while adding exceptional breathability and thermal protection.

For general handling in cold environments that require abrasion resistance and protection from liquid penetration, SHOWA 406 is your optimal solution.

BENEFITS

- Designed to protect at temperature down to -30°C, for short or intermittent contact
- Engineered liner and foam latex moisture permeability dissipate sweat and reduces cold inside the glove
- Water-repellent surface combined with thermal insulating liner keep hands warm and dry enhancing productivity and allowing for longer work periods
- Aerated material reduces cold conduction and eliminates convection by keeping warm air inside
- Dual latex coating provides high abrasion resistance and longer usage
- Coating technology enhances high level of flexibility and reduces fatigue
- Orange colour enhances safety in low light conditions and prevents loss

FEATURES

- Dual natural rubber latex coating
- Water-repellent
- Anatomical hand shape design
- Rough finished surface on palm
- High visibility orange color
- Nylon, polyester, polyurethane liner
- Acrylic, nylon, polyester insulation

LINER:
Polyester
Nylon
Acrylic

LENGTH:
250-295 mm

GRIP:
Rough

COLOR:
Orange / black

COATING:
Natural Rubber Latex

INDUSTRIES

Public Utilities, Mechanical, Logistics,
Landscaping, Construction, Agriculture

STYLE NO:
406M-07
406L-08
406XL-09
406XXL-10

SIZE:
7/M
8/L
9/XL
10/XXL

PACKAGING

5 pairs per polybag
12 polybags per case
60 pairs per case

STORAGE & CARE:

- Do not use in cases of heavy chemical exposure, electrical or thermal risk. - Store away from light and humidity - Wash at 40°C max - Performance level as per EN388 not guaranteed after washing
